To Whom It May Concern,

I oppose the Draft Memorandum being proposed by the FDA. I understand it would restrict the number of prescriptions mailed across state lines by compounding pharmacies. This would create unnecessarily unequal access to medical care with respect to pharmaceuticals. Not all citizens in our country have a compounding pharmacy within driving distance.

I am fortunate to have a compounding pharmacy about 20 miles away and have not yet had a need for any medication available only at such a place, but I am concerned about preserving options for myself and others.

Thank you for considering this.

Sincerely yours,

Nancy Decker
